

Versatility and practicality : Thanks to the technology of our aluminium framed doors, that allow us to use "pure" (not bonded) materials with tactility and warmth. The need to celebrate the senses, to retrieve one's ability to joyfully appreciate life to the full. This implies a return to the natural aspects of the home, to full harmony between oneself and one's surroundings. All the wood finishes of our kitchens respect this pursuit of wellness through the tactility of surfaces: the sensation conveyed by the warmth and feel of the material at your fingertips makes sensations come to life.

Metrika offering smart kitchen solutions to today's generation

As today's generation are focusing more on technology and everything is becoming smart, Metrika one of the leading names in kitchen industry has revolutionized cooking in India and made it a lifestyle experience. It has always stood out for its commitment of offering smart kitchens to today's generation making it a perfect blend of technology and luxury.

Earlier in 2016, the company has won kitchen retailer award at Indian Kitchen Congress. Vasant Vasudeo, Managing Director of Metrika was honoured with the award in the standalone category. In the race of competition, the company has specialized in the field of modular kitchens like none other.

As the kitchen technologies industry is expanding, Metrika recognizes the need to develop and strengthen relations with all partners in order to deliver the products specially designed to meet the demanding Indian consumer needs and taste.

What make Metrika standalone with our competitors is that we design according to the client needs and their price points. Our inherent expertise make us to understand the requirement of our customer and thus help us in providing best solutions to them. To put it down simply, we don't offer what we make, we offer what the customer wants.

The experience center of Metrika is located in Mumbai, Pune and

Lacquers are based on a special varnish that ensures excellent impact resistance and an unalterable, durable mirror finish. Matt lacquer is obtained by adding some micro spheres to varnish that give the product a slight orange-peel effect, making it more resistant to scratches and abrasions.

Ahemdabad and also offers finest design and international quality to raise your lifestyle.

Metrika is your partner in shaping and transforming your home into spaces of comfort, elegance and efficiency.■
