he best kitchens are a combination of aesthetics and functionality. Your kitchen can be a perfect unwinding zone in your home, if you select the right type. To create this little oasis you can check out **Metrika Kitchens'** new outlet in Pune.

For those few who have not heard of the company, Metrika is one of the leading names in kitchen industry who has revolutionized cooking in India and made it a lifestyle experience. It has always stood out for its commitment of offering smart kitchens to today's generation making it a perfect blend of technology and luxury.

The aesthetically designed showroom is spread over an area of 3,000 sq. ft., is designed by Ar. Ravi Shankar. The showroom is a fitting tribute to the international quality products they offer. Refraining from being ostentations and creating mock-ups, the designer has instead created a clean canvas to display these kitchens. The store also displays high-quality kitchen accessories and products, premium bedroom sets with designer head board and sleek wardrobes.

With the store offering sumptuous product line, it is sure to be a sourcing guide for the professionals who are constantly on the lookout for something classy and high-end for their clients. ■
