

ESTABLISHED CORE VALUES: HIGH-QUALITY MODULAR DESIGN SENSIBILITIES

Every project begins with elaborate discussions, quotes Nafeesa- The popular interior designer, and getting a feel of the client's lifestyle to ensure complete harmony in design and the family inhabiting the space.

Nafeesa Fernandes, sharing her journey and experience, as a leading interior designer and owner of a key brand-Nafeesa Fernandes Designs (NFD).. Being part of the financial sector for over 8 years I stumbled upon the concept of interiors while in the midst's of remodelling my home. My enthusiasm for how I thought the space should look and why we should do things in a particular way encouraged me in doing a course on interior designing with S.N.D.T. University. An internship at Design Nexus Architects, with Ar. T.R. Geevith equipped me in a sense for the real world. My first project came through family and being a 2500 sq.ft apartment gave me an opportunity to showcase my ability to design and then execute that design. The end result - a beautifully designed home and house proud clients, giving me the confidence that an aspiring designer much needed at the start of her career. Word of mouth and appreciation for my work got me projects that helped me establish my design firm- Nafeesa Fernandes Designs or NFD as I would like to call it. NFD is driven by our passion to create outstanding designs while retaining our clients' personalization expectations needed by our client.

Nafeesa Fernandes Designs (NFD)*

'Commitment to evoke the "WOW" factor through inspiring design'

As a design firm we specialize in creating comfortable spaces for discerning home owners that are aesthetic yet efficient, visually appealing yet functional. Modern classic homes with a contemporary feel and positive vibes are the essence of our design language. We strive to create meaningful spaces that evoke refined design with distinct character.

The hallmark of any good firm are the core values that they espouse and Nafeesa Fernandes Designs is no exception to that rule: Quality, Dependability, Flexibility, Attention to detail, Transparency and Cost Consciousness!

NFD's association with Metrika.. Began a little over three years ago. They are an 'easy to work with team', combined with highly driven individuals. Their ability to comprehend our clients' specific requirements and customise kitchens accordingly, set them apart from the rest of the modular kitchen companies in the industry. Their capacity to deliver high quality products within the committed time frame makes them a preferred choice for us over other modular kitchen experts. They offer a wide product range across budgets which gives clients flexibility to choose and for NFD an opportunity to provide our client with the best suited combination for their kitchens.

Metrika's design sensibilities being in sync with ours, helps in working together towards achieving the desired look and feel. Be it a vibrant yellow and white kitchen or an understated neutral palette, Metrika always manages to pull it off for our clients making them NFD's logical preference. Constantly upgrading to provide innovative kitchen solutions to clients they have proved to be the kitchen experts in the truest of sense.

Every year, Metrika brings in wider options in material, thereby much more to look forward to in the scope of interiors.

Colours: 2018 is definitely the year of bolder colours. 'Go Bold' is what I am in the opinion will be trending. Deep navy, stunning emerald, dramatic teal are some of the colours that could most definitely add that right pop of colour to a space. Today's growing desire to connect with nature will see the colour green inspire the colour palettes of homes, whether it's patterned floral wallpaper, striking green sofas or turquoise green accents.

Patterns: Intricate and detailed patterns, herringbone, chevron, basket weave will most likely be seen on rugs, throw cushions, wallpapers.

Furniture: Statement furniture pieces, mid-century designs with a modern bend, darker wood tones, unique shapes with an emphasis on comfort, pieces that are attention grabbers..■
